# GasAlertClip Extreme 3

H<sub>2</sub>S or CO

## 3-Year Gas Detection with Event Logging

Simply press the START/TEST button and the **GasAlertClip Extreme 3** is ready to use, providing three years of continuous, maintenance-free operation from the day of activation.

The **GasAlertClip Extreme 3** is highly water-resistant, with an IP-66/67 housing fully-immersible to a depth of one meter. The GasAlertClip Extreme 3 housing includes an integral concussion-proof boot, and a heavy-duty, stainless steel, alligator style belt-clip. A large easy-to-read LCD shows detector life remaining, two alarm setpoints, and peak alarm exposures.

The detector's life remaining is displayed in months, then days, then hours. A full-function self-test verifies sensor, circuitry and battery integrity as well as function of the audible, visual and vibrator alarms.

Stored data can be transmitted directly via IR link to a cordless infrared printer for immediate printout, to a MicroDock II docking station module, or to a personal computer by means of an IR adapter connected to the computer's USB port.

Simply clip the **GasAlertClip Extreme 3** to your lapel, pocket, belt or hard-hat for unequalled, cost-effective protection.
